# Workshop Microsoft Copilot & AI

Get active with Copilot & AI and learn what it can do for your team!

## Program:

In this 3-hour interactive workshop, you will discover the capabilities of AI and Microsoft Copilot. We start with a basic explanation of AI and test the current knowledge, followed by a realistic view of the technology and future developments. The focus is on the practical application of AI in your work environment, with concrete examples and hands-on exercises in programs such as Excel, Word, and PowerPoint.

## For whom:

This workshop is specifically designed for employees and teams who want to get started with the possibilities of AI, under the guidance of an AI specialist from Advise. Ideal for those who want to gain a better understanding of AI and Copilot and to discover how these technologies can optimize.

## What you will learn:

- How AI and Copilot work and what their capabilities are.
- Practical applications of Copilot within your organization.
- Working together to develop an AI use case for direct application.
- Understanding the impact of AI on your industry and the unique opportunities.

## After completion, you will know:

- Do you have a clear understanding of what AI is and what it can accomplish.
- Develop a realistic understanding of the limitations of AI.
- Can you apply Copilot and AI in your daily work.
- Are you able to use Copilot to improve processes.
- Do you have the knowledge to inform your colleagues about Copilot and AI.
- Are you enthusiastic about the possibilities and
